The Legal Dimension of Global Governance: What Role for the EU?

As a result of globalization, peoples of all continents face socio-economic and political challenges of transnational scope and complexity. Solutions lay beyond the grasp of any single state or international organization. This two-day international research conference will bring together academics and practitioners in the field to analyze the extent to which the European Union can shape the ongoing reorientation of the legal structures and substance of global governance regimes in a multi-polar world. The substantive focus of the conference will be on security, finance, trade, environment, and the human dimension of global governance.

Speakers at this research conference include prominent diplomats such as Danish Ambassadors Poul Skytte Christoffersen and Steffen Smidt, as well as academics including Gráinne De Búrca, Joanne Scott, Bruno De Witte, Jan Wouters, Hans Micklitz, Dennis Patterson, and many other prominent experts in the field.
